

Quick Start Guide

Now that you have a new member of the family the following lists will help to make their adjustment to their new family easier on everyone!

SHOPPING LIST:

-  dishes for food and water
-  cat food
-  litterbox and litter
-  carrying box or carrier
-  collar
-  pet ID tag
-  toys
-  treats
-  scratching post

Once You Get Home:

-  obtain a city cat license
-  visit your regular vet for any vaccine boosters or check ups
-  allow kitty adjustment time in a small quiet room (24hrs-2wks)
-  slowly introduce kitty to any other existing pets (1-3wks)

One item that we highly recommend is Comfort Zone spray with Feliway.

Simply spray the inside of the carrier about an hour before you pick up our cat. This will help your cat relax and not be so frightened. Also spray around the home to continue this transition. This will also help the pets you already have ease into having a new pet join the home. This spray will help to control aggression and territorial marking.

Bottom line: it works.
